

CBC BIG BIRD DAY CASUAL BIRDING CHECKLIST

10th JANUARY 2026

Completion Notes

The aim of this form is to capture species seen, together with the location and numbers seen.

The locations that should be used are the coloured areas shown on the Cley Square Recording Sites map.

The form contains 5 columns for counts from up to 5 locations, please write the site name at the top of the form where it says Site 1 etc. Then for each species seen at that site put the number seen or heard in the count column for that site.

You can put any notes in the Notes column or on a separate piece of paper. For instance, you may want to note that the species was seen in your garden within the Cley Village site.

If you visit more than 5 locations use a second form.

Heard only birds can be counted but please indicate this by putting an 'H' alongside the number in the count column.

If you see any species that are not on the list, please add these in the spare rows at the end or, if you fill these, another sheet of paper.

Only full species are included on the list but if you do see/identify any sub-species (e.g. Black Brant) then please note them in the spare rows at the end of the list.

If you see any mammals, please also note them in the spare rows at the end of the list.

If you find a rare bird, please put the news out so that everyone participating in the day can enjoy it, either on the Cley or Norfolk WhatsApps, the information services or ring it into the NWT Visitor Centre on 01263 740008.

Please ensure you put your name(s) and a contact email or phone number on each page.

**ALL CHECKLISTS TO BE BROUGHT TO THE CLEY VISITOR CENTRE BY
5pm on SATURDAY 10th JANUARY.**
