

CBC WINTER BIG BIRD DAY RACE CHECKLIST 4th January 2025

Completion Notes

Just tick each species you see on the checklist in the 'Seen' column.

Heard only birds can be counted but please indicate this by putting an 'H' in the seen column.

If only seen/heard by one person put an 'X' in this seen column, they will not be included in your score but can be included in the total records for the day.

For rarer birds please note the count and where they were seen - this will help us to recognise duplicates when recording everyone's data.

We don't expect you to give counts for all species that you see but if you do count any please note them on the form.

If you see any species that are not on the list, please add these in the spare rows at the end or, if you fill these, another sheet of paper.

Only full species are included on the list as the race is to count the number of species seen but if you do see/identify any sub-species you can also note them in the spare rows at the end of the list.

If you see any mammals, please also note them.

If you find a rare bird, please put the news out so that everyone participating in the day can enjoy it, either on the Cley or Norfolk WhatsApps, the information services or ring it into the NWT Visitor Centre on 01263 740008.

Finally, please ensure your team name and a contact email or phone number is on each page.

**ALL CHECKLISTS TO BE BROUGHT TO THE CLEY VISITOR CENTRE BY
5pm on SATURDAY 4th JANUARY.**
